PROFILE

Senior Product Designer with **13+ years of hands-on design experience** leading UX strategy and delivering web and mobile products for enterprise, healthcare, and SaaS businesses. My foundation is manual design craft: **user research, user flows, wireframes, pixel-precise UI, and design systems built from the ground up.** On top of that craft I use an **AI-first workflow** with Claude.ai, Claude Design, Figma Make, and Lovable to speed up research synthesis, ideation, and prototyping. As **Scrum Master** for the product team, I run design and delivery through a structured, transparent process in **ClickUp**, with components documented in **Storybook** so design and code stay aligned.

SUMMARY

- **Hands-on design craft:** sketching, wireframing, interaction design, and high-fidelity UI for web, iOS, and Android, designed manually in Figma with close attention to detail.
- **Design flows:** end-to-end user flows, journey maps, information architecture, and sitemaps that turn complex requirements into clear, usable experiences.
- **Design systems:** foundations, design tokens, components with variants, and usage guidelines built and maintained in Figma, then documented with engineering in Storybook.
- **AI-integrated workflow:** Claude for research synthesis and user stories; Claude Design and Figma Make for rapid concepts; Lovable for functional MVPs.
- **Process leadership:** Scrum Master for cross-functional squads, with sprint planning, backlog refinement, reviews, and retrospectives managed in ClickUp.
- **Front-end knowledge:** HTML5, CSS3, SCSS, and React UI frameworks, enabling precise developer handoff and hands-on contribution.

TECHNICAL SKILLS

Product & UI Design	Figma (advanced prototyping, components & variants, Auto Layout, Dev Mode, annotations), sketching, wireframing, high-fidelity UI, interactive prototyping, micro-interactions
Design Systems	Design system architecture, foundations and design tokens, component libraries, usage guidelines, Storybook documentation, Zeplin, InVision
UX Research & Flows	User research, VOC analysis, personas, user flows, journey mapping, information architecture, sitemaps, usability testing, heuristic evaluation, WCAG accessibility, market research
AI Design & Prototyping	Claude.ai, Claude Design, Figma Make, Lovable, prompt engineering, AI-assisted research synthesis, AI rapid prototyping
Process & Delivery	Scrum (Scrum Master), Agile sprints, ClickUp (sprints, backlogs, docs, dashboards, automations), Miro, collaboration with product, engineering, and

	leadership
Front-End	HTML5, CSS3, SCSS, responsive web design, Bootstrap, Material UI, Semantic UI React, React Bootstrap, React theming, Webflow, HubSpot CMS, cross-browser and device testing
Tools & Analytics	Adobe Photoshop, Illustrator, UI Wizard, Git, Azure DevOps, VS Code, Sublime Text, Google Analytics, OneSignal, GTmetrix

DESIGN PROCESS

Hands-on design at every stage, with AI used to move faster.

STAGE	HANDS-ON DESIGN	AI-ASSISTED
01 Discover	Stakeholder workshops, user interviews, VOC analysis, competitor audits	Claude synthesises findings into themes, personas, and opportunities
02 Define	User flows, journey maps, information architecture, sitemaps	Claude drafts user stories and acceptance criteria, tracked in ClickUp
03 Design	Sketches, wireframes, and pixel-precise UI in Figma on the design system	Claude Design and Figma Make for rapid concept variations
04 Validate	Usability testing, heuristic reviews, accessibility checks	Working prototypes in Lovable and Figma for faster testing
05 Deliver	Annotated specs, Dev Mode handoff, design QA with developers	Components documented in Storybook; sprints run in ClickUp

WORK EXPERIENCE

Cayzen Technologies

August 2019 – Present

Senior AI-Driven Product Designer · Scrum Master

- Lead **product discovery, stakeholder workshops, and UX strategy**, turning business goals and research insights into clear design requirements.
- Design **end-to-end user flows, wireframes, and high-fidelity UI** by hand in Figma for web and mobile products, from first sketch to final pixel.
- Built the **design system from the ground up**: colour, typography, and spacing tokens, components with variants, and usage guidelines, mirrored in **Storybook** with engineering.
- Introduced an **AI-first design workflow** with Claude.ai, Claude Design, Figma Make, and Lovable, shortening the path from idea to validated prototype.
- Use **Claude** for research synthesis, persona creation, competitive analysis, UX copy, and first drafts of user stories and acceptance criteria.
- Serve as **Scrum Master** for the product squad: facilitate sprint planning, daily stand-ups, sprint reviews, and retrospectives, and remove blockers.

- Set up and manage **ClickUp workflows** (sprints, backlogs, design-review statuses, docs, and dashboards) for a transparent, process-oriented delivery pipeline.
- Partner with product managers and engineers on usability and performance, and contribute **front-end code** in HTML5, CSS3, SCSS, and React UI frameworks.

Meditab

September 2017 – July 2019

Senior UI/UX Designer & Web Designer

- Designed and developed **responsive web applications and healthcare product interfaces**.
- Led UX from **requirements analysis through user flows, wireframes, and prototypes** to final delivery.
- Created **UI assets for iOS, iPad, and Android** applications.
- Wrote standards-compliant code with a focus on **accessibility, SEO, and W3C validation**.
- Conducted **performance and usability testing**, and managed analytics, cookie compliance, and client coordination.

Matrix Comsec

March 2015 – August 2017

Senior UI/UX Designer

- Designed and developed **responsive web applications and enterprise dashboards**.
- Created **UI/UX for desktop and mobile applications**, from wireframes to interactive prototypes.
- Worked with backend teams to ensure **seamless front-end integration**.

Concept Securities Pvt. Ltd.

June 2013 – February 2015

Web & Graphic Designer

- Designed **web applications, landing pages, and brand materials** for corporate clients.
- Optimised graphics and layouts, and built **dynamic web content** with HTML and CSS.
- Collaborated with marketing and development teams on implementation and testing.

EDUCATION

B.Tech in Computer Engineering · CHARUSAT University · CGPA 8.5	2013
H.S.C. (Science) · GHSEB · 86%	2009
S.S.C. · GSEB · 84.92%	2007

PERSONAL DETAILS

Date of Birth	19 December 1991
Gender	Male
Marital Status	Married
Languages	English, Hindi, Gujarati
Interests	Design, digital painting, teaching and training, management, social activities
